Researched, investigated, compiled, collated, and edited, by Professor George Angell

"The Party told you to reject the evidence of your eyes and ears. It was their final, most essential, command."

— George Orwell, *1984*

Preamble:

It is critically-important to note that this compendium is only focused-on the January 30, 2026, release; there is a separate compendium for the December 19, 2025, release.

This compendium is updated to August 6, 2026, and you may save the LimeWire link from which you downloaded this .pdf to check for inevitably-posted updates to this compendium and to the master-folder, as well as for contact-information, when I provide it.

Future compendia will be added to this master-folder in which this compendium is located at the LimeWire link--you will see, eventually, that there will be multiple files available-for-retrieval, and there will be an icon for "download all," when I inevitably-add more distilled compendia.

The data, revelations, and information-revealing-techniques, are self-explanatory, and, hopefully, fellow-researchers and -investigators can find this compendium useful in their research and investigations.

http://www.jmail.world/ reproduces epstein's email-account-inbox, while www.epsteinsecrets.com presents unredacted data, and archives everything released from both data-dumps.

February 16, 2026: https://x.com/Eljaboom/status/2023324977982996639 : A YouTube clone called JeffTube features epstein's thousands of videos found in one place! https://thetab.com/2026/02/16/you-can-now-watch-jeffrey-epsteins-disturbing-private-videos-on-jefftube-heres-how

..."With the release of jeffrey epstein's private files, and the general clunkiness of the DoJ website, software developers created more digestible formats for the disturbing content. The first was JMail, which allowed people to peruse jeffrey's actual emails through a Gmail-like platform.

JeffTube is exactly what it claims to be: the videos and MP4s from jeffrey epstein's private files, as released by the DoJ, under the "epstein Files Transparency Act."

Currently, there are over 1,080 videos to look through, each split into the following playlists: Person cam, cell cam, elevator cam, lobby cam. The platform very much feels and looks like traditional YouTube, and it even features a comment section where people can react in real time. There is, also, a shorts feature that allows you to cycle through short-form content."...

https://jmail.world/jefftube : "All of the videos released by the DoJ from the epstein files. About 140 videos have been removed due to containing pornography and highly-questionable content that we would prefer remain accessible through the federal government's site. I want to take a moment to publicly-thank Mr. Tucker Carlson for presenting some of the evidences, beginning on March 6 and 7, 2026, and continuing-to-today, as he and his team were recipients of the compendium on March 4, 2026; his brave presentation of evidences proves his positive inherent-character as a human-being, his intellectual-honesty, and that he recognizes-fully that this greater-situation is the most important planet-wide-criminality imperiling our world and our collective-future, as you will definitively-realize, as you read the evidences in this compendium.

Finally, and equally-important, DO NOT KEEP THESE EVIDENCES TO YOURSELF, BUT LET EVERYONE WHO YOU ARE ABLE TO REACH KNOW WHAT IS HAPPENING AGAINST OUR COLLECTIVE-SOCIETY, AT-LARGE.

There is no chance for anything of meaningful substance to change, unless and until, the people know-definitively, with the surety of evidences available to them, what is happening, why these untenable things are happening, and the fact that nothing is going to improve, until reality is fully-acknowledged about our frighteningly-corrupted paradigm.

All January 30, 2026, release-related information, unless otherwise-written:

This shows that ghislaine maxwell had(s) a NICK-NAME/TERM-OF-ENDEARMENT for melania trump, "Sweet Pea": January 30, 2026: https://t.me/myLordBebo/102131 :

Email from melania trump to ghislaine maxwell calling her "Sweet Pea."

https://t.me/rnintel/52284 : "From December 20, 2016, jeffrey epstein invited bill gates to his island, and told him that people 'from the first trump administration would be visiting the island.'"

What was discovered-definitively was that, upon-admittance-from-epstein that he is a "representative-of-the-rothschilds," epstein worked-directly- and PERSONALLY-with ariane de rothschild, helping her to recruit government-officials leaving office to serve as advisors to her organizations, and those-of-other-knowing-acolytes, including nathan rothschild, among-others.

There are bidding-wars from the private-sector to hire ex-government-officials, who use their insider-knowledge, INCLUDING THE USE OF FORMAL-SECURITY-CLEARANCE, to suggest investment-strategies, strategize and facilitate geo-politicial-machinations, and use umbrella-organizations to facilitate and launder/obfuscate suspected-criminal-activities, any/all-of-which result in the-insertion of these, and other, operatives, into government- and -NGO-organizations to act-as-spies, operators, and influencers, for these masters-of-money and -of-strategic-control.

epstein would advise de rothschild on which soon-to-be-former-government-officials were worth placing bids on, and would try to broker the deals, including using blackmail and sating-of-abnormal-appetites as leverage and as bait for those individuals not knowingly-aligned with their literal cult, as is expounded-upon-in-depth, further in the compendium.

Incidentally, it was revealed that epstein provided de rothschild with "cereal," which a fully-fledged investigation should ascertain what-exacly "cereal" means in their context, given that the word is an obvious code for a questionable item-of-use/abuse.

https://t.me/myLordBebo/102121 : **"From October 16, 2020, an FBI source reported that alan dershowitz is a mossad agent, and that dersh tried to ward US attorney acosta off from investigating epstein by warning him that epstein is "US intel & mossad.""**

The report further-claims that epstein had direct-ties to training connected to former israeli prime minister ehud barak.

The apparent-reality that former-labor-secretary!!! alexander acosta was protected in some

way by intelligence-operatives/agencies and other-powerful-entities with-in and -out The US was confirmed when acosta became president trump's labor-secretary, a formal Cabinet position, REQUIRING EXTENSIVE BACKGROUND-CHECKS FROM THE-SECRET-SERVICE AND/OR THE FBI, AS-WELL-AS EQUALLY-GRUELING SENATE CONFIRMATION.

Asked upon his swearing-in why he, as Miami district-attorney, had been so lenient on epstein, when he was convicted in 2008 for child sex offenses, acosta responded: "I was told epstein belonged to intelligence and to leave it alone."

alex acosta was there for epstein's original indictment, signed the sweetheart deal hiding everything, and, as-far-as "poor judgment" is concerned: a 2020 Justice-Department investigation found that while, OFFICIALLY/FORMALLY, it was ruled/decided/COVERED-UP/OBSTRUCTED that acosta did not commit 'professional-misconduct,' he demonstrated "poor judgment" in approving the deal, and failing to notify victims, a violation of the Crime Victims' Rights Act.

Given what is now-provably-known, what acosta involved-himself-with could be viewed as accessory-after-the-fact, malfeasance-of-office, OBSTRUCTION-OF-JUSTICE, and myriad-other-unethical and -criminal-conduct.

That shows FBI investigator-notes and allegations made against multiple powerful people that were deleted.

https://t.me/DDGeopolitics/171952 : **"In the newly-released epstein files, there are disturbing allegations against donald trump and other prominent names.**

In the file EFTA01660679.pdf , published on the DoJ website, a 13- or 14-year-old girl alleges that she was forced to perform oral sex on trump (first page, first paragraph, highlighted in yellow).

At the end of page 5 and start of page 6, there are allegations that trump hosted "Calendar Girls" parties at Mar-a-Lago, where epstein brought children for trump to auction off. People like elon musk, trump's children, ghislaine maxwell, alan dershowitz, and bob shapiro, are also mentioned as attending these parties, along with epstein and trump.

We won't go into detail about the allegations; you can read them for yourself.

EFTA01660679.pdf has now been scrubbed from the DoJ website. You can still find it by searching "Calendar Girls," but the download link is dead, as seen in the video.

Keep in mind that these are anonymous allegations, so their credibility may be questionable. However, deleting them from the DoJ website does nothing to stop speculation — it only fuels

it."

Discovered February 12, 2026: https://t.me/rnintel/52282 : **"Congressman Ro Khanna is calling on the DoJ to fully-unredact this email exchange between epstein and an unknown political figure who ran in the 2016 Republican primaries. https://www.timesnownews.com/world/us/us-news/marco-rubio-epstein-email-2016-jeb-bush-scuba-diving-2016-iowa-primary-ro-khanna-epstein-files-article-153603441 :

..."The email in question is dated February 3, 2016, with the subject line "I beat Bush," and was sent to jeffrey epstein. In it, the sender writes: "I got more votes than jeb bush got in Iowa, and I only had one congressional district, he had four!! It's so funny (to me — totally embarrassing to him)!!! Still like trump * and might be a delegate to the republican convention."

The email also references a recent trip to St. Thomas, and scuba-diving near "St. Jeff," joking about placing a fake shark statue underwater for divers. It ends with "Love ya."

The contents of the email have prompted online speculation about which political figure may have sent it. The message references outperforming jeb bush in Iowa and mentions having "one congressional district.""... File EFTA_R1_00605090

When the .pdf-to-Microsoft-Word-unredaction-technique is applied, it appears-quite-obviously that marco rubio, current-member-of-this-administration, was in-personal-contact-with epstein, and was disappointed that, this time, he could not go to "Jeff's Island."

Circa January 16, 2025: https://www.presstv.ir/Detail/2023/01/16/696451/israel-toka-ehud-barak-yaron-rosen-IoT-Internet-intelligence-CCTV-footage-webcams-cameras-Miami-Herald

"tel-aviv-based newspaper *ha'aretz* has revealed how *toka*, a company founded-by the former israeli prime-minister, ehud barak, and the israeli military's cyber-chief, yaron rosen, has mastered terrifying technology capable of locating security cameras or webcams, hacking into them, monitoring their live feeds, and altering them without a trace.

Regulated by the israeli ministry for military-affairs, *toka* has offices in tel aviv and Washington, and works - currently at least - purely with state-level clients, including law-enforcement and intelligence-agencies.

The company has contracts with tel aviv alone valued at $6 million, and is seeking to expand its operations further.

According to a company pitch deck obtained by *ha'aretz*, toka offers what it calls "previously out-of-reach capabilities" that "transform untapped IoT [Internet-of-Things] sensors into intelligence sources," and can be used "for intelligence- and operational-needs."

toka's products allow clients to "discover and access security and smart cameras," survey a "targeted area" and "stream and control cameras" within it over time, and target cars, to "wirelessly access" and extract "car forensics and intelligence" – in other words, the location of vehicles at any time.

Most ominously of all, its clients can gather visual intelligence from both "live or recorded videos," and even "alter feeds" of "audio and visual" recordings, to allow "masking of on-site activities" during "covert-operations."

Video captures, old and new, can also be deleted, without leaving any forensic indicators or even evidence of a hack.

Such applications would no doubt be of intense interest to mossad, the israeli regime's notorious spying agency, which openly subscribes to a "rise and kill first" policy in respect of its enemies.

In January 2010, a 30-strong group of its operatives pulled-off the daring transnational-assassination of senior Hamas leader Mahmoud al-Mabhouh in Dubai.

The mossad agents went to extraordinary lengths to conceal their mission, its purpose and their identities, stealing the names and passport details of innocent Australian, British, French, German, and Irish, citizens, and using a variety of disguises in the process.

Nonetheless, it took police in Dubai just a month to identify every one of them, and trace their steps from israel to the United Arab Emirates and back again, using CCTV footage.

It's not only mossad that now has the capability to cover its tracks in this manner. Internal toka documents reveal that the governments, and spying-agencies, of Australia, Germany, and Singapore, all have access to the company's technology.

toka's capabilities are particularly-terrifying, given that its ability to alter footage extends to manipulating content to incriminate innocent citizens or to shield guilty parties.

In the Occupied Territories, this is of acute concern, given CCTV footage has been used to save falsely accused Palestinians from jail - even then, prosecuting authorities have sought to tamper with video evidence in the past.

What's more, it's not just CCTV that is in toka's firing-line. In recent years, video cameras no longer simply monitor private or commercial buildings and areas, indoors and out.

They can be found affixed to the front of a growing number of homes, in most laptops and tablets, and even baby monitors. Each and every public or private looking- and listening-device is now an effective weapon.

Beyond facilitating mossad assassinations, it's unclear why ehud barak, who served as the israeli regime premier between 1999 and 2001, and labor party leader until January 2011, would have a professional interest in such technology, although his ties with notorious billionaire pedophile jeffrey epstein could well be worthy of examination in this context.

barak was a "frequent guest, almost a fixture" at epstein's expansive New York mansion, before his mysterious "death," reportedly by suicide, in 2019.

The former israeli pm was apparently-untroubled by the financier's sexual proclivities - after the publication of a Miami Herald story in 2017, which led to criminal investigations of epstein for rape, molestation, and sex-trafficking of underage girls being reopened, barak strove to rehabilitate his image.

He approached steve bannon, former White House chief strategist and senior counselor to donald trump, to assist them in a PR blitz to publicly-exonerate epstein.

Beyond their long-running friendship, barak may have had more self-interested reasons for this intervention - he is said to have once joked to epstein that they have "nothing to worry about," as the secrets "are safe."

Virginia Roberts Giuffre, who claims to have been trafficked and pimped-out by epstein over many years, and received a vast out-of-court settlement from the financier's now-jailed "madam" ghislaine maxwell, alleges that barak was one of several high-profile individuals with whom she was forced to have sex by epstein.

Another was leslie wexner, the wealthy *victoria's secret* owner, whose foundation paid barak hundreds of thousands of dollars between 2004 and 2006 for just two research papers, one of which wasn't completed.

In January 2021, the israeli regime's high-court rejected a petition to investigate barak for these payments.

epstein was likewise-immune from legal scrutiny for much of his life, despite his pedophilia and role as a procurer of underage girls for the rich and powerful being well-known in the elite circles in which he operated.

That he was protected in some way by spooks in the US - and elsewhere potentially - was

confirmed when alexander acosta became president trump's labor-secretary.

Asked upon his swearing-in why he, as Miami district-attorney, had been so lenient on epstein when he was convicted in 2008 for child-sex-offenses, acosta responded: "I was told epstein belonged to intelligence and to leave it alone."

Witnesses and victims alike have often claimed that epstein's many lavish residences were equipped with hidden-cameras and -microphones, used to record sexual-assaults and rapes by the politicians and high-profile figures he courted.

At least one source contends that this footage, along with other incriminating material, was collated in personalized dossiers on these clients, for the purposes of blackmail.

If epstein "belonged to intelligence" as alleged, then the US intelligence community likely knew and approved of his sex-trafficking, and it was coordinated with them.

The billionaire's eventual capture, and the danger that his powerful paymasters could in turn be exposed too, means spooks would be wary about funding such a real-life operation again.

The CIA is known to have previously-concocted various plots to implicate foreign leaders through forged sex tapes and compromising photos too.

As such, is toka's tech a modern means by which the intelligence community can create convincing, mocked-up kompromat on targets, with even more plausible-deniability, and no risk of their activities being publicly exposed?"

mossad monitored Khamenei for years through Tehran cameras, — Daily Mail

The newspaper claims that israeli intelligence hacked a significant portion of traffic cameras in Tehran and obtained real-time data. The routes and schedules of the Supreme Leader's bodyguards, their addresses, and movements, were monitored.

One of the cameras recorded the guards' parking at the complex on Pasteur Street in the center of the capital. According to the newspaper, the information was transmitted to tel aviv, and analyzed using AI algorithms.

On the day of the strike, cell-phone-towers near the meeting site were allegedly-disabled to deprive the guards of communication.

The CIA is also reported to have been involved, providing data from a source "on the ground." "We knew Tehran as we know Jerusalem," the newspaper quotes an israeli intelligence-

official.

An israeli spyware firm co-founded by jeffrey epstein's longtime close friend ehud barak just made a catastrophic blunder.

A live screenshot of *graphite's* control-panel was accidentally-exposed - showing real victim phone numbers and active toggles to instantly hijack *whatsapp*, signal, Telegram, and more, and take full-control-over anyone's digital life.

This was the moment a company revealed exactly how its weapon spies on the world.

This tool hacks journalists, activists, human rights defenders, but above all politicians, ministers, opposition leaders, and anyone who might threaten the power or interests of those who pay.

paragon* isn't a tech company. It's a surveillance factory with political cover."

https://t.me/DDGeopolitics/172957 : "An israeli spyware firm built to operate in secrecy has inadvertently exposed how its surveillance system works.

***paragon solutions*, the tel aviv-based company behind the *graphite* spyware platform, briefly-revealed a live government surveillance dashboard in a *linkedin* post by its chief-compliance-officer.**

The screenshot was not a demo interface but an active control-panel, showing unredacted victim details — including a Czech phone number and an israeli contact — along with monitoring toggles for *whatsapp*, *signal*, and Telegram.

The leaked dashboard indicated full-remote-access-capabilities, including the ability to read encrypted messages through device compromise, deploy zero-click exploits, activate microphones and cameras, and extract data without user interaction.

***graphite* is marketed as an "ethical" tool sold exclusively to governments. However, Citizen Lab has linked it to zero-click iMessage exploits and documented cases of targeting journalists, activists, and political opposition-figures. Reports indicate that the spyware has been deployed in Australia, Canada, Europe, israel, Singapore, and The United States. US Immigration and Customs Enforcement (ICE) reportedly holds a $2 million contract connected to monitoring anti-ICE protests.**

https://t.me/llordofwar/564083 : "The Invisible Way That Websites Track Your Every Move

Every day when you browse the internet, you share identifiable information about your device and browser that companies use to target you with advertising and track your activity across the web. This is called browser fingerprinting. In this video interview with Ruihildt from the Mullvad Browser team, we uncover how this tracking technology works and how you can fight back!

Additionally: YouTube (and other corporate websites) has been adding tracking parameters unique to your account to your shared links so it can be traced back to you. Meaning, they will know whom you share it with, who interacts with it, which accounts on other websites use the same parameter. If you share a Youtube video here with a link created with your unique identifiers, *google* will tie your Telegram account with your google accounts.

The same is true for other platforms: *facebook*/*meta*, *tiktok*, *instagram*, twitter/x, ALL OF THEM. A tracking link looks like this:

https://website.com/contentID?si=123456

You can guess that "?si=123456" stands for your identifier and will tie every user who clicks on that link to you.

***facebook*/*meta*, for example, uses "fbid=" instead of "si=". tiktok uses "utm_source=". But they all work the same - they track all users who click on it, and tie them back to you.**

So to improve the #Privacy for you and others, the whole identifier (?si=123456; ?fbid=123456; etc.) should be removed from the link that you want to share."

https://t.me/DDGeopolitics/171983 : "SOMALILAND IN THE epstein FILES!!!!!

Newly-released emails show jeffrey epstein and his network repeatedly discussing Somaliland years before its current geopolitical moment.

Across multiple exchanges from 2012–2018, Somaliland is named as a strategic and commercial opportunity, and tied to water extraction, oil concessions, media influence, and Gulf access.

In one 2012 email, epstein discusses launching a water company in Somaliland, citing “huge untapped and clean water reserves” near the port city of Berbera, with direct shipping access to Saudi Arabia. He frames the project as fast, profitable, and logistically simple, with water sources already mapped.

Another exchange proposes building a film and media hub in Somaliland, explicitly modeled as “SOMALIWOOD STUDIOS.”

A 2013 email references oil exploration concessions in Somaliland, requesting $50 million to finance three large exploration blocks totaling roughly 30,000 square kilometers. The message describes the prospects as “good” and suggests coordination with European contacts.

Later communications link Somaliland to Gulf capital, including a 2018 message referencing a Dubai-based developer involved in major artificial island projects now “doing business in Somaliland,” with epstein facilitating introductions.

Taken together, these documents show Somaliland being discussed inside elite Western and Gulf networks as a strategic asset for resources, logistics, cultural influence, and regional access, long before recent diplomatic recognition moves or renewed instability in Somalia.

These private discussions predate today’s headlines, yet align closely with current regional shifts involving israel, the Gulf states, Red Sea access, and the Horn of Africa."

In a sworn declaration, she describes trump's alleged assault at the fourth party and states: "Immediately following this rape, defendant trump threatened me that, were I ever to reveal any of the details of defendant trump's sexual- and physical-abuse of me, my family and I would be physically harmed, if not killed."

A former epstein employee, "Tiffany Doe," backs her account and says that she personally witnessed trump telling the girl "she shouldn't ever say anything if she didn't want to disappear like the 12-year-old female Maria, and that he was capable of having her whole family killed."

Both women end their declarations with: “I declare under penalty of perjury that the foregoing is true and correct.”

“We will return this territory, and build "The Great Khazaria" – the jewish state –on these fertile lands the same way as, 50 years ago, we created israel.”

-mashiach, menachem mendel schneerson, circa 1994.

The rebbe and living-mashiach of chabad-mafia was the leader of the jewish people from 1951-1994; he is considered to be the most influential jewish figure in the past centuries.

schneerson considered more than Jerusalem and greater-israel as an ancestral homeland; the rebbe had a strong affinity with his ashkenazi roots as he was born in Ukraine in 1902.

he wished to return to this 'Promised Land' to act as the global-capital for "the kingdom of jews."

In a 1994 address featured in the Vologda-based publication Slavyanin, menachem mendel

schneerson detailed his intentions to obliterate both Ukraine and Russia.

“Slavs, and among them Russians – are the most unbending people in the world. Slavs are unbending as a result of their psychological- and intellectual-abilities, created by many generations of ancestors.

It is impossible to alter these genes. Slav, Russian, can be destroyed, but never conquered. That is why this seed is subject to liquidation, and, at-first, a sharp reduction in their numbers.

First of all, we will divide the Slavic nations into small countries with weak and severed connections. For this, we will use our old method: divide and conquer.

We will try to pit these countries against each other, and suck them into civil-wars for the sake of mutual destruction.

The Ukrainians would think that they are fighting against the expansionist Russia and struggling for their independence. They will think that they have finally-gained their freedom, while they become fully-subdued by us (jews).

The same will be thought by Russians, as though they defend their national-interests to return their lands, “illegally” taken away from them, and so on.

Looking back in history, it must be admitted that these lands are the ancient ancestral lands of the jewish-khazaria, that is israel, captured by Kiev’s Rus (the ancient state of Russia with the capital in Kiev) in the tenth-century.

The Slavs are temporary guests on these lands and are subject to eviction. we will return this territory, and build the great-khazaria – the jewish state –on these fertile lands the same way as, 50 years ago, we created israel, squeezing the Palestinians out. israelis will partially-relocate here, and we will drive Slavic cattle out far to the north, beyond Moscow.

There will be a small "Northern Territory," a reservation with a compact population — a reservation, like Indian reservations in America."...

schneerson discusses a resurgent khazar-empire; the chabad-lubavitch intends to relocate from New York, New York, USA, to Dnepropetrovsk, which is outside-of-Kiev, disregarding their very scripture and prophecy of zionism and of israel."...

..."khazaria was a medieval trading nation that flourished for approximately 300 years before its obliteration in the 11th-century.

Its geographical span encompassed Southern Russia, and extended to The Crimean Peninsula.

In the ninth century, the-khazarian-empire had stretched from Astrakhan and the Caspian Sea to the Dnieper, encompassing Crimea, and the White Tower outpost in the north, which

engendered the name of the Białowieża Forest.

These are the origins of the ashkenazim-jews, so to-their-core-thinking, their ancestral-homeland must be repossessed, and ruling-over Crimea and the-oblasts-of-*the-pale-of-the-settlement* is the first step towards reclaiming "the great jewish empire-of-khazaria."

Approximately 85% of the world's jews are ashkenazim, so it would be logical that many of them would choose Ukraine, not just for the historical reasons, i.e., *the-pale-of-the-settlement*, but because israel is increasingly-inhospitable and -under-nearly-constant-attack.

"Revealed: In 1950s, mossad spies married Arabs to conceal identity

mossad's (ulysses project)'s secret operatives took on false identities, married Palestinians, had children - all the while feeding intelligence to israeli operators.

uri yisrael served as a fighter in (caesarea), the (mossad special operations division), and has a unique record: He lived under an assumed identity for the longest time period – 15 years.

yisrael and another fighter dubbed "isaac" (his name is still under censorship) were part of the (ulysses project) – a secret israeli intelligence project in the 1950s and 1960s.

They were planted as Arabs, married Palestinians, had children and were incorporated into the Palestinian community as businessmen. They were the first to provide intelligence regarding the establishment of Fatah, and took part in the first plans to kill Yasser Arafat and Abu Jihad.

uri yisrael's son is 50-years-old today and lives abroad. To this day, he does not know that his father is not a nationalistic Palestinian but an israeli mossad agent. He also does not know he has a half-brother: shai yisrael, a lawyer, uri's son from a jewish woman.

The story begins in 1950, when isser harel, then the director of the mossad, set up a unit called ulysses, with the purpose of planting agents within the Palestinian refugee community in the West Bank and in the neighboring countries. The recruits were jewish zionists, recent immigrants from Arab countries. They joined the secret unit after harel and his men convinced them it was a "top priority national mission.""...

"chabad leader, messiah menachem mendel schneerson ON HIS PLANS TO DESTROY SLAVS

This speech [a letter sent to the newspaper] of menachem mendel schneerson, the chabad leader and messiah (the lubavitcher rebbe), was published in the Vologda newspaper "Slavyanin», N-4 (32), 2001 in Russia.

Following the publication, the court was unable to prosecute its editor, V.F. Popov, under trumped up charges under Article 282, [incitement of national hatred] as he operated on the facts, and several Russian scientists stood up for him, including Academician Y. K. ***..."The official publication of the text in the newspaper "Slavyanin," N-4(32), 2001, Volgograd. After publication in Russia, jews filed an application to the Ministry of Internal Affairs and tried to convict the editor of the newspaper, V.F. Popov, for anti-Semitism (Article 282 of the Criminal Code of the Russian Federation). The court considered, heard witnesses and specialists - Russian scientists, academician Yu.K. Begunov and Doctor of Law O.G. Korotayev spoke. The court denied the accusation, and the text of schneerson's speech was recognized as true. schneerson publicly announced the plans of the jews against the Slavs and Russians*."**

https://www.counterpunch.org/2014/04/07/why-is-the-us-honoring-a-racist-rabbi/

..."However, there is also a less attractive underside often at odds with such public perceptions. And some of the more extreme parts of schneerson's teachings – such as that jews are a completely different species than non-jews, and that non-jews exist only to serve jews – have been largely hidden, it appears, even from many who consider themselves his followers.

As we will see, such views profoundly impact the lives of Palestinians living – and dying – under israeli occupation and military invasions."...

..."For example, the quotes above were translated by the authors from a book of schneerson's recorded messages to followers that was published in israel in 1965. Despite schneerson's

global importance and the fact that his world headquarters is in the U.S., there has never been an English translation of this volume."...

“The difference between a jewish and a non-jewish person stems from the common expression: “Let us differentiate.” Thus, we do not have a case of profound change in which a person is merely on a superior level. Rather, we have a case of “let us differentiate” between totally different species.”

“This is what needs to be said about the body: the body of a jewish person is of a totally different quality from the body of [members] of all nations of the world (nations literally translated to 'g0yim')… The difference in the inner-quality between jews and non-jews is “so great that the bodies should be considered as completely different species.”

“An even greater difference exists in regard to the soul. Two contrary types of soul exist, a non-jewish soul comes from three satanic spheres, while the jewish soul stems from holiness.”

“As has been explained, an embryo is called a human-being, because it has both body and soul. Thus, the difference between a jewish and a non-jewish embryo can be understood.”

“…the general difference between jews and non-jews: a jew was not created as a means for some [other] purpose; he himself is the purpose, since the substance of all [divine] emanations was created only to serve the jews.”

“The important things are the jews, because they do not exist for any [other] aim; they themselves are [the divine] aim.”

“The entire creation [of a non-jew] exists only for the sake of the jews.”

..."heavenly jerusalem" (also "new jerusalem", "israel 2.0", "new israel") is a project whose goal is to form a jewish state within Ukraine on the territories of its five southern regions: Odessa, Dnipropetrovsk, Zaporozhye, Kherson, and Mykolaiv.

The project is long-term, its terms are determined by the *board of benefactors*, and the time is described until 2049, and even after 2060.

Project Description

According to i. berkut, the author of the idea and the executive director of the project: the next five years are destruction and fragmentation after 19, and the next five years, after 2024, are reformatting. 2029 is the first step for '*new israel*.'

So, by the end of 2029, about 5 million jews are expected to arrive in the "new motherland" for the construction of "new jerusalem."

israeli prime minister b. netanyahu has already discussed the organization of the resettlement and settlement of jews, as well as possible economic and political assistance in the implementation of the project, with the current prime minister of Ukraine v. groisman , Prime Minister of the Russian Federation D. A. Medvedev, and senior adviser to US president donald trump and a member of the influential jewish organization chabad lubavitch, jared kushner."...

..."It is noteworthy that despite its scale of the project, it is not covered either in the world or even in the local Ukrainian press (meaning the central media channels), with very rare exceptions.

Almost all information about the project implementation comes from its executive director igor berkut. Video interviews of i. berkut, covering the progress of the project, are posted on the YouTube channel "rassvet."

The official announcement of the *new jerusalem project* is planned to be made after the adoption of the law on the decentralization of Ukraine in 2021-2022. In July 2019, Switzerland allocated €25 million, including for the decentralization of Ukraine.

The *new jerusalem project* started in early 2017, with the landing in the port of Odessa of the first group of immigrants from israel, headed by i. berkut. This group of 183 jewish pioneers arrived in Ukraine from haifa (israel), to lay the first stone in the foundation of *heavenly jerusalem* on the fertile land of Southern Ukraine.

The management of the *new jerusalem* will be entrusted to the "*council of the benevolent*," consisting of 12 leaders:

1. A native of Kiev , golda meir, 5th prime-minister of the state of israel, was declared *honorary eternal head of the council*;

2. b. netanyahu will become the chairman-prime-minister, after the completion of the powers of the prime-minister in the state of israel ;

3. The former head of the US Federal Reserve, ben bernanke, will manage the finances;

4. Defense-issues will be the-charge-of the current-minister-of-defense of israel, a native of Chisinau, Moldova, avigdor lieberman ;

5. The secret-services will be headed by yakov kedmi, former-head of the *nativ bureau for relations with jews of the USSR and Eastern Europe*, who was born in Moscow;

6. Political-scientist and publicist avigdor eskin, who was born in Moscow, will be in-charge-of foreign-affairs;

7. Internal-affairs will be entrusted to the former-minister-of-internal-affairs of the state of israel, Soviet dissident natan sharansky ;

8. The media will be headed-by the famous Russian TV presenter vladimir solovyov ;

9. Questions of justice will be decided by a native of the Crimea, lawyer tatyana montyan;

10. The speaker of the council will be the former-president of the *russian jewish congress*, evgeny satanovsky;

11. The chief-rabbi is supposed to appoint an ethnic ashkenazi-khazar version of the appearance of this branch of the tree of israel;

12. *hidden apostle*

It is planned-to-create two capitals in *new jerusalem*: the first, the political- and business-capital, will be located in today's city of Dnepropetrovsk/Dnipro, and will be called consonant with the *new jerusalem project*; the second, the cultural-capital, will be located in Odessa, and will be called "*adessa*."...

https://t.me/DDGeopolitics/170026 : "This is manuel adorni, the Argentine presidential spokesman, speaking at Casa Rosada.

In this clip, he explains recent deregulation affecting rural land. Foreign private entities are now allowed to purchase rural land, and long-standing protections on conserved areas are lifted once a fire passes through. Land that was previously protected for decades after a wildfire can now be reclassified and sold.

In practical terms, this means that pristine areas such as Patagonia lose their legal protection after a fire, opening the door to land sales that were previously prohibited.

This is an extremely serious policy shift. It links wildfires, deregulation, and land acquisition, in a way that has profound consequences for environmental protection, land sovereignty, and public accountability."

For those-of-you never-having-understood why *trans-genderism* has been pushed-so-heavily-against-society, this is a large-truth-about-this-paradigm that has been knowingly-kept-from the masses, for brazenly-obvious reasons:

The talmud recognizes at least six genders, including male (zachar), female (nekevah), androgynos (having both male- and female-characteristics), tumtum (indeterminate sexual-characteristics), aylonit (female at-birth, but developing male-characteristics), and saris (male at-birth, but developing female-characteristics). Some interpretations expand this to eight genders by-further-categorizing aylonit and saris.

The epstein files reveal that bill gates' chief science adviser was coordinating with epstein on Russian regime-change networks as early as January 2012.

boris nikolic served as gates' chief adviser for science and technology, and was later named executor of epstein's $578 million will. He also acted as a go-between, connecting epstein to Russian opposition figures.

One of them was ilya ponomarev, a former Duma member who helped organize the 2011–2012 "white ribbon" uprising against Putin, and was the only deputy to vote against Crimea's reunification with Russia 445 to 1. In January 2012, nikolic forwarded ponomarev's request to epstein asking:

"any idea how to help him???"

By June 2015, the same networks were being used to arrange U.S. asylum for LGBT Russians, leveraging a political movement that Russia had outlawed in 2013.

This was two years before Crimea — and a decade before the SMO against Ukraine in 2022.

Where is ponomarev now? After gaining Ukrainian citizenship, he aligned with the *freedom of russia legion*, a traitor terrorist organization that has carried out cross-border raids into Russia's Belgorod and Kursk regions, bringing the war into civilian areas. These incursions involved armed attacks, sabotage, and coordinated strikes, on border settlements, triggering evacuations and causing deaths and injuries among civilians. While Western media often portray these

groups as “opposition fighters,” on the ground their raids functioned as terror-style attacks — aimed at destabilizing Russian regions and spreading panic.

However, in mid-2024 the legion officially broke ties with ponomarev, withdrawing from the political coalition that he had led, stating that cooperation had not achieved results, and the group now focuses exclusively on its terrorist operations.

Newly-disclosed messages between epstein and larry summers from May 2019 show the following:

epstein says that zelensky was looking for help, and that Putin was dismissive of him, reportedly saying that zelensky is “run by israelis.”

larry summers responded that he could discuss Ukraine, noting his experience with victor pinchuk’s network and his involvement in Ukraine debt relief during the post-2014 regime change.

Who was mentioned:

larry summers — American economist, former U.S. treasury secretary, former head of the White House National Economic Council, and long-time economic policymaker. At the time, he was known as a figure in Western economic- and political-circles with ties to global financial institutions.

victor pinchuk — Ukrainian oligarch who created a prominent pro-Western forum to promote Ukraine’s integration with the EU, and hosted high-profile international political- and business-figures.

natalie jaresko — American-born economist appointed as Ukraine’s finance minister after the 2014 coup. She negotiated Ukraine’s sovereign debt restructuring and led major IMF-backed financial programs during her term."

The day after epstein's death, U.S. attorney geoffrey berman of the SDNY opened a Grand Jury proceeding and subpoenaed 4Chan, Apple, AT&T, and Citibank, for records aiming to uncover Grijalva's identity following the anonymous 4Chan post.

Grijalva's name is not redacted on his bank records included in the SDNY subpoena response from Citibank for his 4Chan post, and ties to the same Prison Officer Roberto Grijalva whose statements were released as part of the prison's investigation into epstein's death.

After skimming through the diary of a girl he intentionally impregnated to obtain live experimental material, assisted by his constant companion, ghislaine maxwell, I have several questions:

1. Why did the accomplice, maxwell, only get 20 years?!!!!

2. Why wasn't an international investigation launched, given the international trafficking of children? Britain, Poland, Lithuania, and other countries, have now announced they are launching their own investigations into human trafficking. Washington should have been on this trail when it first took-up the investigation into epstein's crimes! They should have alerted Interpol and Europol. Alarm bells should have been ringing, given the scale of this hell.

3. Why haven't criminal charges been brought against the Briton, andrew windsor (formerly-known-as the prince), who paid-off his victim, only to have her recently found dead?

Now it's becoming clear: from the Kennedy assassination to the Nord Stream 2 bombings, nothing is being investigated in The West, just like the "epstein case," which implicates "global elites." Abstract

Preclinical studies of COVID-19 mRNA vaccine BNT162b2, developed by Pfizer and BioNTech, showed reversible hepatic effects in animals that received the BNT162b2 injection.

Furthermore, a recent study showed that SARS-CoV-2 RNA can be reverse-transcribed and integrated into the genome of human cells. In this study, we investigated the effect of BNT162b2 on the human liver cell line Huh7 in vitro. Huh7 cells were exposed to BNT162b2, and quantitative PCR was performed on RNA extracted from the cells. We detected high levels of BNT162b2 in Huh7 cells and changes in gene expression of long interspersed nuclear element-1 (LINE-1), which is an endogenous reverse transcriptase. Immunohistochemistry using antibody binding to LINE-1 open reading frame-1 RNA-binding protein (ORFp1) on Huh7 cells treated with BNT162b2 indicated increased nucleus distribution of LINE-1. PCR on genomic DNA of Huh7 cells exposed to BNT162b2 amplified the DNA sequence unique to BNT162b2. Our results indicate a fast up-take of BNT162b2 into human liver cell line Huh7, leading to changes in LINE-1 expression and distribution. We also show that BNT162b2 mRNA is reverse transcribed intracellularly into DNA in as fast as 6 h upon BNT162b2 exposure."...

LINE-1 pathway is our cells' mechanism to bring mRNA into the nucleus, copy it into DNA, and insert the resulting DNA into our own genes; "LINE-1 pathway" is a form-of-reverse-transcription. These creatures knew this-entire-time what they were doing, and what MYRIAD!!! deleterious-effects were going to manifest in those whose genetic-coding became corrupted, via mRNA, and to be-inevitably-passed-down-to-progeny, because of GENOMIC-INTEGRATION!!

U.S. commerce secretary howard lutnick has said he had only "limited interactions" with jeffrey epstein, but newly-released documents indicate the two were in business together as recently as 2012, and remained-in-contact for years afterward.

The so-called epstein files include a contract dated Dec. 28, 2012, showing that lutnick and epstein signed through separate limited-liability-companies, LLCs, to acquire stakes in an advertising technology firm called *adfin*. epstein signed on-behalf of his *southern trust company*, while lutnick signed for an entity called *CVAFH I*. Their signatures appear on

neighboring pages of the agreement, alongside seven other shareholders.

lutnick, the longtime *cantor fitzgerald* executive, previously told the New York Post that he and his wife cut ties with epstein in 2005, after visiting epstein's Manhattan townhouse, calling him a "disgusting person." However, emails show that lutnick and epstein continued communicating; in 2011, they arranged calls and discussed meeting for drinks.

The following year, lutnick and his family planned a possible visit to epstein's private island, Little St. James. epstein hosted lutnick for lunch on Dec. 24, 2012, and his assistant later wrote that it was "nice seeing you." The *adfin* deal was signed just four days later.

A source close to lutnick told CBS News that *cantor fitzgerald* was only a small minority investor in *adfin*, and claimed that lutnick may not have known who the other investors were.

Correspondence related to the company continued into at least 2014. The files also point to other longstanding connections: lutnick once lived next door to epstein in Manhattan, after purchasing a townhouse that had previously been linked to epstein.

A Commerce Department spokesperson dismissed the reporting as an attempt by "legacy media" to distract from the administration's achievements, insisting that lutnick has never been accused of wrongdoing, and interacted with epstein only in the presence of his wife.

The revelations place lutnick among a wider network of prominent figures now-facing renewed scrutiny over ties to epstein, following the release of the Justice Department documents."

https://t.me/DDGeopolitics/172651 : "In the "epstein files," an extremely-uncomfortable detail was discovered: on December 6, 2018, exactly the day when the FBI officially launched an investigation into child trafficking, the banker ordered a substantial batch of sulfuric acid to his Little St. James island.

We're talking about six 55-gallon barrels — almost 1,250 liters of caustic substance. The payment documents show an amount of around $5,000, which covered not only the goods, but also fuel and insurance for transportation to the private island.

Officially, such a purchase could be explained by water desalination system maintenance or pool cleaning, but the timing looks alarming. On the same day that investigators began unraveling the case of sexual exploitation, epstein suddenly became concerned with

delivering a huge amount of chemicals most-often-used in criminal practice for destroying evidence and biological traces.

Interestingly, these details only surfaced now, in early 2026, after the publication of millions of pages of U.S. Department of Justice archive documents. Despite trump ordering the maximum acceleration of these file disclosures after his inauguration, many questions remain unanswered. For example, did FBI agents check the acid supplies during island searches, and what ultimately-happened to these 330 gallons."

..."One of the revelations of the latest batch of epstein files is his strong interest in viruses, vaccines, pandemics, and mRNA. Two months after getting out of jail, he is writing about viruses, infectious-diseases, and something that he calls “My BIG idea.”

Or, for instance, in January 2010, he was discussing mRNA and codons:

The latest batch of documents relating-to the investigation of jeffrey epstein, released on January 30, consists of over 3 million pages, with many names redacted. A helpful simulation of epstein's inbox has been created, fully-searchable and giving access to the contents of over 7,000 emails: https://jmail.world/ With keywords and patience, the original documents can then be located on the DOJ website. https://www.justice.gov/epstein The redactions are generally-removed, if able, and are collated at https://www.epsteinsecrets.com/

The trio of epstein-nikolic-gates also features prominently in a long agreement letter sent by epstein to gates. According to this 2013 document, gates "specifically requested" epstein to "personally serve as the representative" of nikolic in negotiations over the termination of his work with gates. The first section of this six-page letter states: "mr. gates acknowledges that mr. epstein has an existing collegial relationship with mr. gates in which mr. epstein received confidential and/or proprietary information from mr. gates." An analysis of its contents and wider implications can be found in a detailed article by Sayer Ji on epstein, gates, and "Pandemics as a Business Model."

In March 2017, two and a half years before *Event 201*, three years before Covid-19 was officially declared a pandemic by The WHO, an email-thread involving gates and *bgC3* (bill gates catalyst 3, now *gates ventures*) speaks of "pandemic simulation."

A number of emails in the epstein files speak of pandemic preparedness. One of them, from March 2015, explicitly invites to discuss "how to officially involve the WHO" for the sake of "co-branding" (it looks like the "product" to "co-brand" is a pandemic).

In 2017, an email from boris nikolic addressed to both epstein and gates (four years after the agreement letter about epstein mediating the rupture between nikolic and gates) mentions "pandemic" as a key area for a Donor Advised Fund.

nikolic was later named as executor in epstein's will, signed two days before his "death," officially by suicide, in August 2019. (As I am writing this, a friend points-out to me that according to Fortnite Tracker, a player with epstein's username, littlestjeff1, was still playing, from israel, in 2024…)"...

Saudi Arabia, the first holy place of Islam.

Context: In 2017, internal emails (included in the famous epstein Files, recently made public by the US Department of Justice) show the sending of fragments of the sacred fabric of the Kaaba (the Kiswa) to epstein.

The people involved in the sending are aziza al-ahmadi, a Saudi businesswoman based in the United Arab Emirates who coordinated the operation, and abdullah al-maari, a Saudi presented in the emails as her contact on-site.

In one of the emails sent to epstein, aziza al-ahmadi presents the fragment of the Kiswa before sending it, as-follows:

"This black fabric has been touched by at least 10 million Muslims of different faiths, Sunnis, Shiites, and others. They make seven times around the Kaaba, then each one tries as much as he can to touch it and deposit their prayers, their wishes, their tears, and their hopes, hoping then that all their prayers will be answered."

The fragment of the Kiswa was shipped from Saudi Arabia via British Airways Air Cargo to Florida (epstein's residence), where ahmed bin sulayman is present alongside jeffrey epstein to receive it.

In the photo, ahmed bin sulayman is the head of an important authority linked to the Emirati government, the DMCC, a free-zone created by the state to attract international companies.

He is also a member of the Dubai Executive Council, an influential government body that helps define the major orientations of the emirate, as well as the UAE Federal Tax Authority, a federal government authority.

Several questions remain: why offer the Kiswa fabric to epstein, why did he want it and for what purpose, and how was such a shipment possible, since this is a holy relic being sent to a jew?"

PS: A sensitive compartmented information facility(SCIF) in United States military, national security/national defense and intelligence parlance, is an enclosed area within a building that is used to process sensitive compartmented information (SCI) types of classified information."

What common-people would obviously-not-appreciate is that entering a SCIF requires a high-level background-check, usually-done by The FBI or Secret Service, and the information being-

discussed/handled within a SCIF is so sensitive that the room, itself, is like a vault.

This is as-serious-as-serious-gets in its implications.

The Ditch gained access to jeffrey epstein’s FedEx account – with records showing that it was used for shipments long-after his "death," and an address-book including a senior israeli military-officer now-considered a “strategic consultant” for “diplomatic matters."

One of the shipments sent fewer-than two years ago was delivered to a dissolved company that owned and operated epstein’s private jet.

The US Department of Justice published millions of files related to epstein late last month, and The Ditch identified an unredacted password for epstein’s FedEx account. The record with the

account login details has since been deleted.

Live and accessible

jeffrey epstein's FedEx account included the addresses and contact details of his high-profile associates like convicted child abuser ghislaine maxwell, sex-trafficker jean-luc brunel and disgraced billionaire les wexner.

Among the lesser-known of the almost 100 names is ex-israeli air force lieutenant colonel-turned-strategic consultant danny grossman, who lists alan dershowitz as one of his clients.

grossman served in the US Air Force before moving to israel in 1979 and joining that state's equivalent. He claims to have had reports placed on the front page of the New York Times and has been a director of the *american jewish congress*.

The FedEx account was used as recently as summer 2024 – despite epstein's death in 2019.

A shipment weighing just under half a kilogramme was collected from aircraft company Gulfstream Product Support in Savannah, Georgia, and shipped to Plan D, LLC, in Kennesaw, Georgia, on 20 May, 2024.

Plan D is the now-dissolved company that epstein incorporated to own and operate his private jet, which donald trump used during the 2024 US presidential election campaign.

Meanwhile, another package weighing 1.4 kilogrammes was shipped from the same Gulfstream address in Georgia to Empire Aviation in West Palm Beach, Florida, on 12 March, 2024, according to invoices.

The FedEx account names ex-epstein accountant bella klein as its administrator, while jeffrey e. epstein is listed as the account holder.

Amazon's jewish ceo, andy jassy, was responsible for Amazon's unpopular "*project nimbus*"

deal to provide AI and cloud services to israel's military. The deal received huge pushback from Amazon employees, whom jassy subjected to disciplinary action.

brett ratner is a serial-sexual-deviant who moved to israel, and started hanging-out with netanyahu, after six women accused him of various sexual perversions, like randomly masturbating in front of them on a movie set.

..."Association with jeffrey epstein and Mindshift Conferences

al seckel partnered with jeffrey epstein to organize the Mindshift conferences, a series of invite-only gatherings in the late 2000s and early 2010s, aimed at exploring the nature of reality, perception, and consciousness, through interdisciplinary discussions. epstein acted as the

principal financier and host, providing funding and venues such as his properties in the U.S. Virgin Islands, which enabled seckel to curate events attracting elite scientists and intellectuals.

A notable instance was the January 2011 Mindshift Conference held on epstein's private island, Little Saint James, and nearby Saint Thomas, featuring participants including Nobel Prize-winning physicist murray gell-mann and neuroscientist christof koch. seckel promoted the event on epstein's personal science blog, emphasizing its role in assembling "exceptional thinkers" for probing fundamental questions about the mind. This collaboration occurred after epstein's 2008 guilty plea to state charges of procuring a minor for prostitution, for which he served 13 months in a work-release program, yet seckel proceeded with the partnership, gaining proximity to high-profile figures in academia and science.

An email released by the U.S. Department of Justice indicates that seckel altered Wikipedia content regarding epstein as part of their association. Following epstein's 2019 federal sex-trafficking charges and "death," seckel's role in these conferences faced retrospective examination, with observers highlighting the apparent contradiction between seckel's public advocacy for rational skepticism and debunking perceptual deceptions, and his alignment with epstein, whose activities involved systemic-manipulation and -exploitation. The association underscored potential vulnerabilities in seckel's network-building efforts, as epstein's patronage offered elite access, but later-implicated participants in ethical lapses amid epstein's documented criminal history.

Ties to the maxwell family

al seckel entered into a relationship with isabel maxwell, the eldest-daughter of British media proprietor robert maxwell and sister to ghislaine maxwell, culminating in a marriage ceremony in Malibu, California, around 2007. The union was later revealed to lack legal validity, as seckel had not completed the formal divorce from his previous wife, alice klarke, despite their separation in 2007. Following the ceremony, seckel and isabel maxwell relocated to the South of France, where they resided together until seckel's death in 2015.

isabel maxwell built a career in technology entrepreneurship, co-founding the *mckinley group* in 1992 with her twin-sister christine, which developed the *magellan* web-search-engine, and was acquired by *excite* in 1996 for approximately $18 million in stock. She subsequently-served as president of *commtouch software*, an israeli-founded cybersecurity firm focused on email- and web-filtering-technologies, from 1997 onward, leveraging her experience in early internet ventures to secure investments and partnerships in Silicon Valley and israel. This professional background contrasted with seckel's public persona as a self-taught collector and promoter of optical illusions, lacking formal academic credentials in science or related fields.

The maxwell family's legacy, shaped by robert maxwell's ownership of a sprawling media empire including the Daily Mirror and Pergamon Press, included persistent allegations of intelligence

affiliations, with claims from investigative authors that he served as an asset for israel's mossad, facilitating technology transfers such as the *promis* surveillance software in the 1980s.

robert maxwell, who died under mysterious circumstances in 1991, after falling from his yacht, faced accusations of financial improprieties, including pension-fund looting totaling over £400 million, and purported ties to British MI6 and Soviet KGB operations, though these remain subject to debate among historians and lack definitive declassified confirmation. Such connections provided the maxwell siblings, including isabel, with entree into elite transnational networks spanning media-, technology-, and security-sectors. seckel's association with isabel maxwell afforded him proximity to these networks, potentially-enhancing his invitations to high-profile events and collaborations in scientific- and tech-ommunities, as evidenced by his documented interactions with Nobel laureates and academics during their partnership.

Critics have viewed this marriage as opportunistic, arguing that it bolstered seckel's credibility in intellectual circles amid his own financial irregularities, such as unpaid debts and disputed rare book dealings, thereby undermining claims of independent achievement. This perception aligns with broader scrutiny of seckel's pattern of leveraging personal alliances for professional gain, distinct from his illusion-related pursuits.

Circumstances of Death

al seckel's body was discovered on July 1, 2015, at the base of a cliff in Saint-Cirq-Lapopie, France, where he had resided since approximately 2010. The location was near his home, following what was described as a hiking incident or accidental fall, though the body had reportedly lain undiscovered in underbrush for several weeks, prior to recovery.

French authorities issued a death-certificate confirming that seckel, aged 56 and born alfred paul seckel on September 3, 1958, in New York, had perished from injuries sustained in the fall. The official cause of death was ruled a suicide by deliberate plunge from the cliff, as determined by a French prosecutor's investigation that concluded in April 2022, amid seckel's mounting financial debts exceeding millions and ongoing legal disputes over unpaid obligations. No suicide note was reported at the scene, and physical evidence included trauma consistent with a high fall, with body identification verified through documentation matching seckel's identity. The ruling occurred against a backdrop of seckel's reported personal strains, including prior indications of depression linked to his commercial failures and creditor pursuits, though these were not cited as direct forensic factors."...

In-case it is not obvious-enough, al seckel is alive-and-well, and this was yet-another staged-"death."

She was exposed to the epstein network 20 years before his arrest, but she was locked-up in a mental institution. In 2001, runway star and face of Dior and Chanel, Karen Mulder, accused modeling agencies *elite* and *karin models* of supplying girls to epstein.

Karen claimed that models were drugged with memory-erasing substances, and turned into commodities for princes and politicians.

She called jean-luc brunel a "child hunter," and in 2021, he was officially charged with child abuse.

But in 2001, brunel was the king of the industry, and Karen's words were not believed. When asked why the model didn't go to the police, she replied that high-ranking officials and law enforcement themselves were guests at such parties, and their involvement was also confirmed years later.

But in 2001, the interview was hastily removed, and Karen, herself, was locked-up in a mental

hospital; moreover, the treatment was paid for by one of the men she accused.

Six months after leaving the clinic, Karen couldn't withstand the pressure. The system celebrated its victory: her career was over, and the world considered her insane. In December 2002, she was found unconscious in her Paris apartment – she had taken a fatal dose of sleeping pills. Karen fell into a coma, but doctors miraculously saved her.

In 2006, Karen had a daughter, Anna. Motherhood became her salvation – Karen withdrew from the press in France, dedicating herself to raising her child, and avoiding any cameras.

In 2019, after almost 20 years of silence, she suddenly appeared at a charity event in Paris. The world froze: Karen looked just as aristocratic, but there was steel in her eyes. She was no longer a victim – she was a survivor.

2026: Final victory.

Today, Karen Mulder is 55 years old. She lives a private life in Paris. She doesn't give interviews, but her silence today is louder than any scream. After brunel committed suicide in prison, and dozens of models came forward against marie, Karen was officially recognized as a "Whistleblower" – the one who first-challenged the system."

https://www.dropsitenews.com/p/israeli-government-surveillance-epstein-apartment-66th-street-ehud-barak

"The israeli government installed security equipment and controlled access to a Manhattan apartment building managed by convicted sex offender jeffrey epstein, according to a set of emails recently released by the Department of Justice. The equipment was installed starting in early 2016 at 301 E. 66th Street—the residence where former israeli prime-minister ehud barak frequently-stayed for stretches at a time.

The security operation at "ehud's apartment" was in place for at least two years, emails from the DoJ disclosure show, with officials from the israeli permanent mission to the United Nations corresponding regularly with epstein's staff regarding security. The apartment was technically owned by a company connected to epstein's brother, mark epstein, but was effectively-controlled by jeffrey epstein. Units in the building were frequently loaned out to epstein's contacts, and used to house underage models.

rafi shlomo, then-director of protective service at the israeli mission to the United Nations in New York and head of barak's security, corresponded with epstein employees to arrange meetings to discuss security and coordinate installation of specialized surveillance equipment at the 66th Street residence. shlomo personally-controlled access to the apartment for guests, and even conducted background-checks on cleaners and epstein's employees.

Under israeli law, former prime-ministers and other high-ranking officials typically receive security services after they leave office. According to the emails, epstein personally-approved the installation of the equipment, and authorized meetings between his staff and israeli security officials.

ehud barak and the israeli mission to the United Nations did not respond to requests for comment."...

..."A January 2016 email exchange between barak's wife, nili priell, and an epstein employee—whose name is partially redacted but appears from other communications to be his longtime assistant lesley groff—discussed installing alarms and surveillance equipment at the residence, including six "sensors sticked to the windows," and the ability to remotely control access to the premises. priell informed epstein's staff that, "They can neutralize the system from far, before you need somebody to enter the appartment. the only thing to do is call rafi from the consulate and let him know who and when is entering."

The correspondence also indicated that the work done by the israeli government was significant enough that it required epstein to personally approve it. "jeffrey says he does not mind holes in the walls and this is all just fine!" groff wrote to barak and priell."...

August 2, 1997: https://slate.com/news-and-politics/1997/08/so-are-the-neanderthals-still-jews.html :

"You read the press reports in July about the DNA of Neanderthals, and you quickly grasped how the new findings suggest that this branch of humanoids is much more distantly related to modern Homo sapiens than you may have believed–they are not even direct human ancestors. Now you must apply these findings, and examine their implications for the world around you. Specifically, you must weigh their effect on certain theories in circulation, among them that Neanderthals still walk–or lumber–among us, and indeed that they have maintained their cohesion through the ages and still constitute a group apart. And, most importantly, that this group of living, lumbering Neanderthals is the jews.

You laugh? That may be a mistake. At least two theorists working separately have concluded precisely this: the jews are surviving Neanderthals. Laughing at such ideas suggests you believe them to be absurd. But the validity of such theorizing is beside the point. What matters is the existence of such a premise, because it validates the question it seeks to answer: What explains the Jews? That Jews require a meta-explanation is the problematic premise, one that even

philo-Semites have sometimes fallen for. Anyway, if you laugh at the idea that the Jews are Neanderthals, what will you do when you learn, as you shortly will, that the Jews are really aliens from outer space?

A long and extraordinary history of speculation concerns the ultimate identity of the Jews. In its course, learned fellows have repeatedly announced they have stumbled on a Big Secret, a hidden truth that explains Jewish survival, character, behavior, and even the historical antipathy toward Jews by others. That Big Secret has often been that Jews are not what they seem to be: This line of thought provides for a certain macabre entertainment, but it is also a lesson in how the most inane ideas can have the most appalling consequences. Here is a whirlwind tour of the field, in approximately chronological order.

The district court granted ebbing's request. On March 19, 2025, it issued a penal order against him and imposed a total prison sentence of ten months, suspended on probation."

While the public was barred from entry in 2020, due to the COVID-19 pandemic, the clergy were still permitted to conduct the rites. Neither the Six-Day War nor the israeli war of independence saw a formal-ban on the Mass, and there is no evidence to suggest that it did not take place.

Ottoman and Mamluk rulers never issued such restrictive measures during their centuries-of-rule over Jerusalem. The last authorities to formally-prohibit this Mass for political reasons were the Fatimids, prior to the destruction of The Church of The Holy Sepulchre in 1009.

israeli telecommunications infrastructure has been used to track mobile phone users across more than 10 countries over the past three years, according to an investigation by Canada-based digital research group Citizen Lab, cited by haaretz.

The probe found that systems spanning legacy networks and modern 5G architecture were effectively turned into "tracking devices" using advanced spyware tools, with over 15,700 location-tracking attempts recorded since November 2022 across countries including Thailand, South Africa, Norway, Bangladesh, and Malaysia.

Internal documents reviewed by haaretz showed that israel-linked firms marketed and deployed surveillance tools globally. *verint*, the parent company of *cognyte*, reportedly sold an SS7-based system known as *skylock* to a government client in the Democratic Republic of Congo, while Swiss telecom firm *fink* enabled israeli companies such as *rayzone* to impersonate mobile carriers and infiltrate networks.

May 29, 2026: https://t.me/RezistanceTrench/51272 : "CONGRESS IS QUIETLY FUSING THE U.S. AND israeli MILITARIES AND HIDING "AID:"

Buried in the House's 2027 National Defense Authorization Act (NDAA) released Tuesday is Section 224: "United States-israel Defense Technology Cooperation Initiative."

This provision would integrate the U.S. military with the israeli military more deeply than the $200 billion in military aid israel has received since 1948.

What it does:

◆Bilateral R&D and co-production of weapons

◆Joint ventures, licensing agreements, defense tech cooperation across AI, quantum, autonomous systems, directed energy, cyber, biotech

◆"Network integration" and "data fusion," meaning that U.S. military data become israeli military data

◆Expands israeli co-production facilities in the U.S. (Mississippi, Arkansas), creating U.S. jobs tied to israeli interests

This would provide deeper military-industrial integration than the U.S. has with any other country, including NATO allies. The U.S. typically provides weapons to foreign militaries. This is different: it fuses entire defense sectors.

By expanding co-production facilities on U.S. soil, the israeli government gains one of the most powerful levers in U.S. politics: jobs. Members of Congress representing districts with israeli defense jobs become locked into supporting israeli interests.

This shifts israel cooperation from visible annual aid votes into the opaque machinery of defense acquisition. Less oversight. Minimal political accountability. A relationship that is simultaneously deeper and less transparent.

This comes as:

◆64% of Americans say that trump was wrong to go to war with Iran

◆Only 16% say the U.S. should keep supplying israel weapons without restrictions

◆38% want to stop supplying weapons entirely

◆24% want weapons conditioned on how israel uses them

◆Yet Congress is moving to bind the U.S. military to israel more tightly than ever.

The gap between what Americans want and what Congress is doing is vast. And Congress is closing it by making the relationship less visible, not more."

June 18, 2025: https://t.me/DDGeopolitics/152317 : "BREAKING! IAEA AND palantir Colluded With israel to Manufacture War With Iran!:

Since 2015, the IAEA has used palantir's mosaic platform (designed for U.S. military ops) to monitor Iran's nuclear program under the JCPOA. Mosaic processed over 400M data objects, including satellite and social media, enabling 60+ SURPRISE inspections.

But, during an AMA, palantir's founder peter thiel was asked, "Is palantir a front for the CIA?" thiel replied, "No, The CIA is a front for palantir," most-likely referencing their CIA funding and founding.

Even more recently, last week, thiel fielded a question about palantir's use in Gaza to which he said, "I'm not on top of all the details of what's going on in israel, because my bias is to defer to israel."

Why are these people responsible for the software of our international institutions???

On June 12, 2025, Iran leaked documents allegedly showing IAEA chief rafael grossi coordinating-directly with israel. Iran says the IAEA became a conduit for israeli intelligence—echoing earlier claims from 2018, when mossad raids uncovered internal IAEA files.

The June 2025 IAEA resolution: the FIRST in 20 years, citing 400kg of 60% enriched uranium. Days later, israel bombed Natanz, Fordow, and Isfahan. Iran accused the IAEA of providing-cover for the strikes.

Meanwhile, palantir's ceo held a 2024 board meeting in tel aviv "in solidarity" with israel. And, now, thiel's circle, which pushed for trump's 2018 JCPOA withdrawal, now stands at the center of a surveillance network blurring the line between arms-control and regime-change.

Iran has now limited IAEA monitoring.

Critics, including Russia's Yermakov and analyst Ali Vaez, warn that palantir's data could produce false positives from "dirty" inputs like israel's 2018 file dump, triggering inspections or war based on politicized intelligence.

A UN agency meant to prevent war may have just helped start one.

Our latest investigation reveals how palantir's mosaic, a CIA-linked AI platform, guided IAEA reports that justified israel's June 12 strikes on Iran's nuclear sites. Built for the battlefield, mosaic wasn't designed for diplomacy—but it now steers global-nuclear-oversight.

Leaked documents suggest that the IAEA shared mosaic data with israel. Iran calls it a cover for aggression. The IAEA says it had "no proof of a weapons program." So why is there a war?

The billionaire credited for grooming and supporting jd vance, the current vice-presidential nominee for the Republican Party, has invested millions of dollars in projects that facilitate

israel's occupation and its ongoing war on Gaza.

peter thiel, the venture capitalist who introduced vance to Silicon Valley more than a decade back and spent a record-breaking $15m to ensure he succeeded in becoming a senator in Ohio, is a co-founder of palantir technologies, the CIA-backed analytics firm currently playing a key role in israel's war on Gaza.

thiel owns eight percent of palantir, which is valued at around $69bn."...

..."palantir's thiel was initially thrust into the national spotlight in July when vance was announced as the Republican Party's vice presidential nominee in July. But his links to israel were only recently highlighted when a video of him fielding questions over the use of AI arms in Gaza went viral on social media.

The video from an event at Cambridge University back in May shows thiel stumbling as he attempts to explain and defend his company's role, as well as israel's use of AI machinery to generate kill-lists during the current war on Gaza."...

Founded in 2003, the Denver-based palantir technologies is a giant analytics company that provides data services to intelligence agencies, law-enforcement and the US military.

Not only did it provide information to the US military during the invasions of Iraq and Afghanistan, but over the past 10 months in particular, palantir has provided AI-powered military and surveillance technology support to the israelis in its war on Gaza.

It has, in the words of palantir's co-founder alex karp, been involved in 'crucial operations in israel.'"...

THE TRUTH: https://www.unz.com/article/profiling-palantir-the-tech-firm-beloved-by-the-wef-and-founded-by-peter-thiel-and-zionist-zealot-alex-karp-that-is-watching-every-last-move-you-make/

"palantir technologies — its name derived from the “seeing-stones” of deception (palantir) that allow their holder to see across great distances to track friends and foes, in JRR Tolkien’s The Lord of the Rings — has been called the “most evil company on the planet” by critics — on both the traditional Left and Right.

Although few people have heard of palantir, it’s as important as any firm in existence, an existential threat to our personal liberty and global peace, and as dangerous as some of the more infamous firms like *blackrock* or *vanguard*.

Headquartered in Denver, palantir was founded by Stanford University dormmates, peter thiel and alex karp in 2003. Strident zionist, karp, brought in stephen cohen and others later.

Since then, palantir has grown into a $200 billion juggernaut with contracts with dozens of governmental bodies globally.

TOO‘s Scott Howard mentioned palantir a few years ago in passing, when discussing thiel,

writing that thiel founded palantir, which was integral to the COVID-19 “vaccine” allocation aspect of *operation warp speed* (under trump), among many other aspects of the globalist-transhumanist agendas. And he noted that thiel shares a similar obsession and ideologies with a “great many of the “elites” behind "the Great Reset" and the other spokes of the globalist agenda.

alex karp, thiel’s partner, is first and foremost, an anti-White zionist and Leftist whose contempt for humanity and dissent knows no bounds.

karp, who cites israel, "the frankfurt school," and his parent’s judaism, as the foundations of his ethos, has described himself as an “activist” and “socialist at heart." He referred to his parents as jewish hippies, saying that “they often took him to labour rights demonstrations and anti-Reagan protests when he was young. Even as recently as 2018, during a Wall Street Journal interview, karp referred to himself as a “proud self-described socialist."

Like david milliband (former British Foreign Secretary to PM gordon brown), current British prime minister, kier starmer — who is married to a zionist-jew and is raising his children as practicing jews, and has predictably come down as hard on Left-wing pro-Palestinian activists as he has on right-wing British patriots protesting Islamism — karp’s self-described penchant for “humanitarian activism” only reaches as far as his tribal allegiance."...

..."Enter peter thiel and palantir

As the investment took shape, epstein pushed barak to “spend real time” with peter thiel, co-founder of paypal, Silicon Valley billionaire, and founder of the surveillance giant palantir.

palantir is one of the most powerful and secretive companies in the world — designing software for intelligence agencies to analyze vast troves of data on civilians, enemies, and entire populations; its origins are deeply-tied to the CIA.

In May 2014, epstein invited barak to join him for a meeting with thiel. barak couldn’t attend, but epstein insisted on setting up another dinner. Emails show barak privately describing his

“first date” with thiel, saying they would probably spend it talking about geopolitics.

Later, in 2016, epstein personally pitched *carbyne* to *valar ventures*, a fund co-founded by thiel. Although valar declined at the time, thiel’s *founders fund* eventually joined a $15 million funding round for carbyne in 2018.

So, here is the picture: epstein was leveraging barak to bridge israeli intelligence, American surveillance tech, and Silicon Valley money."...
